newborn portraits

“I didn't blink..but you still grew”

One day you will look back at when your babies were babies,
all soft and squishy and cute with chubby fingers and edible toes.

Life is fast...too fast actually.

You can't stop time, but by having these early photos of when your babies were babies
and your children were young, is priceless.

You can look back at that time of beautiful chaos and that awful mess of wonderful life
and just....remember.

all the things you get:

- 2 hour coverage at your home, in the nursery, on your bed, all cosy and warm. I also like to include taking some photos outdoors as well, to add a different perspective and some fresh greenery to your images. This can either be just outside your home or we can go to a local park.
- All-inclusive beautifully hand edited high res images.
- Custom timber USB containing all your images.
- 6 x 4 inch hardcopy prints of all your images so you can touch and feel your photos.
- Packaged in an organic timber keepsake box.
- Assistance with clothing style and colours for all members of the family
- Free 30 minute maternity session at a lovely park or river near my studio.
